

HIROSHIMA / SOFA

DESIGN

NAOTO FUKASAWA ,2009-

A truly simple sofa. The refined straight lines give the chair the impression of relaxed inviting comfort. At the same time, the slight curvature provided by the fabric and cushion creates a softness that blends perfectly into any setting. The superb structure, made of down and low-resistance urethane to support the body with just the right amount of give, smooth stitch work, and careful attention to other equally detailed features make for a wonderful sofa.

WARRANTY

We will guarantee the product for two years from the date of delivery of the product. For the content of quality assurance please see the "Warranty Policy" included in the product.

TECHNICAL INFORMATION

WOOD

The wood used in this product is obtained from oak or walnut trees in North America that are managed and felled in a planned manner. If required, we can manufacture furniture with the FSC® or PEFC™ certification. In that case, however, a longer lead-time will be required to procure the wood.

UPHOLSTELY

Back cushion: feather, urethane foam
Seat cushion: urethane foam
Body frame: elastic webbing, urethane foam

VOC

The coating and glue used here reduce VOC emissions in manufacturing processes and finished products. These materials have been tested for formaldehyde emissions in accordance with the ISO12460 standard and confirmed not to exceed the 0.4 mg/l emission level.

FLAME RESISTANCE

The foam and materials of the product can be customized to meet the requirements of BS5852 Source 5 with a special order.

PURPOSE OF USE

Indoor
MaruniWood Industry has established various test standards and designs for comfortable use. However, the use of products beyond the expected scope can lead to cracking and snapping of wood parts. There are several things you should keep in mind in order to properly preserve the product and continue using it for a long time. Therefore, be sure to read the instruction manual beforehand.
